```c
#include <stdio.h>
#include <unistd.h>

int main (int argc, char *argv[])
{
        int ch;

        while ((ch = getopt(argc, argv, "vU:P:S:D:i:o:e:")) != -1) {
                fprintf(stderr, "found option '%c' '%s'0, ch, optarg);
        }

        return 0;
}
```
